AZ CORP COMMISSION
DOCKET CONTROL

RE: Net Metering; Docket No. E-01345A-13-0248

Thank you for your letter expressing your concerns about net metering. Commissioner Brenda Burns has received thousands of letters and emails from both sides of the issue and appreciates your input. She especially appreciates correspondence from individuals with specific sentiments, such as yours, rather than the multitude of automated and generic protests.

Please know that your comments have been submitted to the docket and will be part of the record. You can track this issue's activity and progress by visiting the Commission's e-Docket website, <http://edocket.azcc.gov/edocket/> and entering the docket number referenced above.

The issue of solar net metering will be heard at the Open Meeting, scheduled for Wednesday, November 13 at 9:30am at the Arizona Corporation Commission (ACC). The ACC is located at 1200 West Washington Street, Phoenix, AZ 85007. All members of the public are welcome to attend and will be provided the opportunity to provide Public Comment. Those that wish to speak will be given three minutes. If you are unable to attend, you may phone-in and listen and/or watch the meeting live on our website at www.azcc.gov.

Commissioner Burns feels it is important to hear from customers as well as regulated utilities in order to help her, in her full consideration of the issue, make a final determination of its outcome. Therefore, like a judge, Commissioner Burns will consider the evidentiary record before rendering an opinion.

Thank you, again, for taking the time to be a part of this important process.

Sincerely,

Thomas Galvin
The Policy Advisor to Commissioner Brenda Burns
