To: Arizona Corporation Commissioners
Please consider reforming Arizona's net metering policy.

I value solar energy, but also want to ensure our state's solar policies are fair for solar and non-solar users alike. The current rules unfairly shift grid-related costs to non-solar customers, while solar customers use the grid, but essentially avoid paying for their fair share of it.

Please consider the interests of all energy consumers, and help Arizona develop a solar future that is fair and sustainable for the long term.

Thank you.

Sincerely,

Signature

Arizona Corporation Commission,
please reform Arizona's rooftop solar policies.
