DOCKET CONTROL

Dear Sirs,

I am writing the ACC to voice concern over proposed charges to those who have added solar panels to their property. Through the Solar Store in Tucson, AZ, I added 22 panels to my roof at a cost of \$22,601. There is no way to ever re-coup these costs, but I felt that it was morally correct and would help our community by using the sun which is so abundant provide jobs and make it less likely TEP would need to build additional fuel power plants. Hearing TEP wishes to charge its customers with solar panels a charge of up to \$100. a month is very distressing.

I hop you will thoughtfully consider and then negate such an idea, as a surcharge for not using the grid and that we don't pay our share isn't a just claim.

If I had know about this a couple of months ago, I would never have gone to this expense. I feel it is almost a double penalty for trying to do the right thing for our community.

Sincerely,
Sarah G. Schmert
