Re: Opting out of Smart Meter and/or any other digital utility meter at 16 Pinto Lane, Sedona, Arizona ("Property")

To: Whom It May Concern:

This letter is sent to you on behalf of myself and my wife, Judy, to advise you that we are opting out of the installation of any device which has been designed to monitor our personal activity on our property or in our residence, such as the so called "Smart Meter." We are hereby notifying you that we refuse and do not and will not consent to allow APS, its employees, agents, or subcontractors any access to the Property for the purpose of installing or the use of any such meters or devices on the Property.

It is our understanding that at this time the safety, security, and efficacy of the use of any Smart Meter or activity monitoring meter/device has not been approved and ordered to be installed in Arizona. We object to any such use on the Property, and we reserve all right to pursue any and all claims against any organization or person who enters upon the Property for the purpose of installing or utilizing any such activity monitoring device. Any such installation or use shall constitute a trespass upon the Property, invasion of our privacy, the violation of numerous constitutional rights granted to us, and the violation of Arizona and United States Statutes. We therefore are notifying you of our objections and reservations, and our intent to seek legal recourse for any and all such violations.

If you should have questions as to our intent, please feel free to contact the undersigned at the above address or phone numbers.

Very truly yours,

[Signature]
James P. Reichert, Esq.
