DOCKETED BY [Signature]

IN THE MATTER OF QWEST CORPORATION'S PERFORMANCE ASSURANCE PLAN.

DOCKET NO. T-01051B-03-0859
DECISION NO. 74244
ORDER

Open Meeting
December 17 and 18, 2013
Phoenix, Arizona

BY THE COMMISSION:

FINDINGS OF FACT

1. On August 27, 2013, Qwest Corporation d/b/a CenturyLink QC ("Qwest" or "CenturyLink") filed an application to modify the Qwest Performance Assurance Plan ("QPAP" or "PAP") and Performance Indicator Definitions ("PIDs"). The Arizona Corporation Commission ("Commission") initially approved Qwest's PAP in Decision No. 64888 (June 5, 2002), as part of the Qwest Section 271 approval process. The QPAP uses PIDs to measure Qwest's performance to ensure Qwest continues to provide adequate service to wholesale customers following its approval, pursuant to Section 271 of the Telecommunications Act, to provide intrastate interLATA telecommunications services. The QPAP is Exhibit K to Qwest's Interconnection Agreements ("ICAs") and the PIDs are set forth in Exhibit B to Qwest's ICAs. The QPAP was implemented when Qwest received Section 271 authorization from the Federal Communications Commission ("FCC") on December 15, 2003.

1 2. CenturyLink requests that the existing Arizona PAP and PIDs be replaced with the
2 PAP and PIDs that were approved by the Colorado Public Utilities Commission (“CPUC”) on June
3 12, 2013.

4 **THE COLORADO SETTLEMENT**

5 3. On May 23, 2013, CenturyLink, Comcast Phone of Colorado, LLC (“Comcast”),
6 MegaPath Corporation fka DIECA Communications, Inc. dba Covad Communications Company
7 (“MegaPath”)¹, tw telecom of Colorado LLC (“tw telecom”), Eschelon Telecom of Colorado, Inc.
8 dba Integra Telecom (“Integra”), and Staff of the CPUC (collectively the “Settling Parties”) filed a
9 settlement agreement with the CPUC for the purpose of redesigning CenturyLink’s PAP (the
10 “Colorado Settlement”). On June 17, 2013, the CPUC entered a written order approving the
11 Colorado Settlement.² According to CenturyLink, the Colorado order is now final and is not
12 subject to any petitions for reconsideration.

13 4. The CLECs that were parties to the Colorado Settlement either directly, or through an
14 affiliate, are CLECs that operate in Arizona. Further, there are several other CLECs that
15 participated in the Colorado PAP proceeding, but were not Settling Parties (hereinafter referred to
16 as “Active CLECs”). These Active CLECs included Access Point, Inc., Liberty Bell Telecom, 3
17 McLeodUSA Telecommunications services, Inc., dba PAETEC Business Services (now
18 Windstream), and XO Communications Services, Inc. None of the Active CLECs opposed the
19 Colorado Settlement. All of these CLECs also have ICAs in Arizona. In addition to the
20 Active CLECs, all other CLECs in Colorado had notice and an opportunity to participate in that
21 proceeding, including the settlement negotiations. There was no opposition to the Colorado
22 Settlement, and most of these CLECs also have ICAs in Arizona. The Settling Parties agreed that
23 the redesigned PAP that was approved by the CPUC should be proposed for adoption in the 13

24 ...

25 _____
26 ¹ On August 20, 2010, MegaPath, Inc., CCGI Holding, Inc., and Speakeasy Broadband Services, LLC merged, with
27 respective operating companies continuing to operate as separate entities. As part of an intra-company pro forma roll-
up merger, Covad Communications Company was merged into its sister affiliate, DIECA Communications, Inc.,
effective December 30, 2011. Effective January 1, 2012, DIECA changed its name to MegaPath Corporation.

28 ² See, CPUC Decision No. C13-0722, Docket No. 02M-259T.

³ Liberty Bell Telecom is now known as dishNET Wireline, LLC.

1 other CenturyLink Regional Bell Operating Companies' ("RBOC") states (of which Arizona is
2 one) with an effective date of January 1, 2014.

3 **NOTICE AND OPPORTUNITY TO INTERVENE**

4 5. CenturyLink and Staff have recently worked together to develop a mailing list of
5 affected Arizona carriers in the non-impaired wire center matter.⁴ The resulting list of carriers
6 includes all of the carriers with which CenturyLink has interconnection agreements, and/or which
7 have been certified by the Commission as either a Facilities-Based or Resale CLEC. Notice of this
8 Petition has been emailed to each company on the list, using the same current email addresses that
9 are used for carrier notifications. Carriers are well-used to receiving notices from CenturyLink in
10 this fashion for important matters regarding their contracts and operation.

11 6. In addition to the notice described above, CenturyLink has specifically served this
12 Petition on the intervenors who affirmatively intervened or participated as settling parties for the
13 2007 Stipulation, and to the carriers which are among the Colorado Settling Parties, by U. S. mail
14 to currently known addressees.

15 **STAFF REVIEW AND RECOMMENDATIONS**

16 7. The Settling Parties' agreed upon QPAP and PID changes are summarized as follows:⁵

17 **Payment Structure Revisions**

- 18 • Institutes a three-tiered, severity-level payment structure to replace the current month-by-
19 month definitions of non-conformance and payment triggers,
- 20 • In connection with the new severity levels, replaces current payment increment amounts
21 with three levels of amounts,
- 22 • Revises payment escalations for consecutive months of non-conformance so that they also
23 apply to the two new levels of severity,

24
25 ⁴ IN THE MATTER OF THE APPLICATION OF DIECA COMMUNICATIONS DBA COVAD
26 COMMUNICATIONS COMPANY, ESCHELON TELECOM OF ARIZONA, INC., MCLEODUSA
27 TELECOMMUNICATIONS SERVICES, INC., MOUNTAIN TELECOMMUNICATIONS, INC., XO
28 COMMUNICATIONS SERVICES, INC. AND QWEST CORPORATION REQUEST FOR COMMISSION
PROCESS TO ADDRESS KEY UNE ISSUES ARISING FROM TRIENNIAL REVIEW REMAND ORDER,
INCLUDING APPROVAL OF QWEST WIRE CENTER LISTS (DOCKET NOS. T-03632A-06-0091, T-03406A-
06-0091, T-03267A-06-0091, T-03432A-06-0091, T-04302A-06-0091 AND T-01051B-06-0091)

⁵ See Application Exhibit I.

- 1 • Specifies that all payments are to be made to individual CLECs affected by non-
2 conforming performance levels and thus removes the concept of separate “tiers” of
3 payments,
- 4 • Identifies 9 payment-eligible and 18 Diagnostic (i.e., non-payment-eligible) PIDs, and also
5 10 payment-eligible products,
- 6 • Removes the annual Minimum Payments and Low Volume, Developing Markets
7 provisions,
- 8 • Standardizes the statistical methods and parameters across all states in which CenturyLink
9 QC has PAPs, based on the original Colorado PAP,
- 10 • Sets the annual payment caps at levels specified for Arizona at \$67 million,
- 11 • Modifies the timing required for making payments and payment reporting for DS1-Capable
12 Loops and EELs-DS1 in order to accommodate a provision calling for CenturyLink to pay
13 the larger of the MR-8 Trouble Rate amount and the sum of the OP-5 New Service
14 Installation Quality and MR-7 Repair Repeat Reports amounts,
- 15 • Sets the interest rate applicable to late payments and underpayments at the U.S. Treasury
16 rate in place at the beginning of the current calendar year, unless the Commission has
17 established a different, up-to-date rate for customer deposits, in which case that rate will be
18 used, and
- 19 • Refines the dispute resolution process and change provisions to be more consistent across
20 all states.

21 **PID Revisions**

- 22 • 9 PIDs remain payment eligible in the redesigned PAP,
- 23 • 18 PIDs will be retained for reporting only (i.e., not payment eligible),
- 24 • 11 products will continue to be reported and 10 will be payment eligible if the related sub-
25 measurement is not Diagnostic,
- 26 • Make PID language invulnerable to replacements of systems being measured by PIDs, to
27 the extent possible,
- 28 • Modifies/Updates specified standards and provisions,
 - Updates the volume threshold for Local Number Portability to reflect current
standard intervals,
 - Adjusts benchmark standards affected by making Sub-Loops payment eligible, and

- 1 • Changes the title of MR-5 (“All Troubles Cleared in 4 Hours”) to “Troubles Cleared in
2 Specified Intervals.”

3 8. No comments have been received from any of the CLECs that would be affected by
4 changes to the QPAP and PIDs. As with the 2007 Settlement Agreement that last revised the
5 QPAP and PIDs, the CLECs who executed this most recent Settlement are among the largest
6 competitors of CenturyLink, and they are known to contest Qwest policies that they believe
7 impede their ability to compete. Cox, another large Qwest competitor, was notified of the filing
8 and has not challenged the CenturyLink Petition.

9 **STAFF RECOMMENDATIONS**

10 9. Staff has reviewed filing, the Colorado Settlement Agreement and the proposed
11 revised Arizona QPAP and PIDs. Staff has concluded that the proposed modifications do not
12 appear unreasonable. CenturyLink has filed copies of the Minnesota, Idaho and Utah
13 Commissions’ Orders which have approved the revised PAP and PIDs contained in the Settling
14 Parties’ Settlement Agreement. As stated previously, none of the affected CLECs have filed
15 objections to the proposed revisions. Therefore, Staff recommends approval of CenturyLink’s
16 Petition to modify the Performance Assurance Plan and Performance Indicator Definitions.

17 CONCLUSIONS OF LAW

18 1. Qwest Corporation d/b/a CenturyLink QC is a public service corporation within the
19 meaning of Article XV of the Arizona Constitution.

20 2. The Commission has jurisdiction over Qwest Corporation d/b/a CenturyLink QC
21 and the subject matter in this filing.

22 3. The Commission, having reviewed the filing and Staff’s Memorandum dated
23 December 3, 2013, concludes that it is in the public interest to grant approval as proposed and
24 discussed herein.
