DOCKETED

JAN 30 2014

*****E-01345A-12-0248*****

Received 30 letters in opposition, all with similar wording/thoughts as the following:

DOCKETED BY NR

Commissioners:

I urge you and other elected officials to revise the net metering policy in AZ as it relates to homeowners, who don't have solar installed, paying subsidies for homeowners that have solar panels in place.

I am 100% supportive of the solar industry and working toward a clean energy source for the future. In addition to solar boosting the economy during these hard times, it creates high paying jobs through installation and the development of the panels themselves. The investment by the individual customers and the jobs the solar industry creates is great. That being said, I don't think net metering furthers the goal of solar in Arizona in the least. Although people do need encouragement or incentives to purchase new technology sometimes, I don't think it should be at the cost of other energy customers.

A ten cent deficit for solar customers has to be paid for somewhere and that somewhere is the other customers that don't currently take advantage of the solar panel incentive program. The community shouldn't have to pay for what the few have chosen to do...install solar on their homes.

Take action now for my community and for the majority of Arizonans. Thank you.
