STATUS REPORT

19 **IN THE MATTER OF THE**
20 **APPLICATION OF PICACHO PEAK**
21 **WATER CO., INC., FOR AUTHORITY**
22 **TO INCUR DEBT TO FINANCE**
23 **WATER SYSTEM IMPROVEMENTS**

24 Picacho Peak Water Company (“Company”) hereby files its status report
25 regarding the Company’s compliance with Arizona Department of Environmental
26 Quality (“ADEQ”) regulations. The Company has developed an electronic map of the
27 system. The mapping project is not complete, however, and the current draft map needs
28 to be field tested to verify the location of certain underground pipelines. Nevertheless,

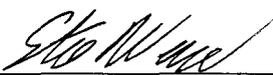

1 the Company believes the current map can be used to generally locate the distribution
2 system.

3
4 Meanwhile, the Company is continuing to operate, maintain, and monitor the
5 point-of-use treatment to achieve compliance with the Nitrate standards. With only one
6 exception, the point-of-use treatment has been installed and is working well at every
7 customer residence or business. The only exception is the Dairy Queen, which had
8 installed a treatment device long ago, but it recently failed and now another system needs
9 to be installed, which should occur in the next few weeks.
10

11
12 Finally, the Picacho RV Park has installed a centralized reverse osmosis treatment
13 facility. ADEQ has agreed that the RV Park is now a consecutive water system
14 responsible for treating the water it purchases from the Company. Accordingly, the
15 Company now has only to install treatment at the Dairy Queen location.
16

17 Respectfully submitted this 4th day of February, 2014.
