Subject: Vote NO to APS's Plan to Reduce Solar Energy in Arizona

Dear Commissioner Stump,

I write today to urge you to reject APS's proposal to eliminate the distributed generation (DG) carve-out. If APS's proposal is approved it would effectively cut their overall renewable energy goal from 15% to 10% - leaving Arizona with one of the weakest clean energy goals in the West. The DG carve-out is helping to diversify and clean up our energy supply. Now is not the time to roll it back.

Please vote NO today to this anti-solar, anti-consumer proposal.

Allowing a reduction in APS's renewable energy goal is like ensuring your kids and grandkids get asthma and will have extremely costly energy. God speed!

Thank you.

Sincerely,

James Kirby
