Docket6 No. E-01345A-13-0069 OPPOSED SMART METER

Arizona Corporation Commission
DOCKETED

FEB 14 2014

Hello! Whom It may concern to effect this opt-out of the APS smart meter,

DOCKETED BY

I wish to opt-out of the APS smart meter and receive a blue tag for my meter ASAP. Please.

After living in big cities for the past 40 years my husband who is retiring this year, and I have bought a house in Sedona April 2011. We felt it is a good healthy environment yet lively and full of happy healthy people who care about what they eat, how they live and their neighbors. I am a healer, and need my good health in order to help others. I came to Sedona for this reason and spent a lot of money and invested in our house. I am sensitive to electrical currents as in natural healing we are sensitive to all energies rather magnified. I insist that I must not have this APS smart meter on my house or any electrical tower in my neighbor. My neighbors agreed that it would not be healthy for us, even though it may be convenient for APS to not to have a person come monthly to read the meter. I prefer the person to come and read the meter and keep my analog meter.

The good people who have researched spent time and lots of money on this matter have created the letter below of which I agree with what they have said. I place it here for you to see.

Barbara Matsuura

ARIZONA CORPORATION COMMISSION

UTILITY COMPLAINT FORM

8. It is possible for example, with analysis of certain so-called "Smart Meter" data, for unauthorized and distant parties to determine medical conditions, sexual activities, trade secrets, physical locations of persons within the home, vacancy patterns and personal information and habits of the occupants.

9. So-called "smart" meters - and digital meters - cause, by intentional transmission and/or incidental disruption of house current, cancer-causing electromagnetic radiation to be emitted in proximity of the installed location and property in violation of laws against public

endangerment, assault and commission of bodily harm.

10. So-called "smart" meters are designed to transmit using microwave radio transmissions known to cause cancer and many other diseases, illnesses and symptoms.

11. Your legal easement to my property does not include easement for a microwave transmitter or any networking equipment. Any such installation will be considered a violation of private property and an illegal "takings" - in other words, trespass and theft.

I forbid, refuse and deny consent of any installation and use of any monitoring, eavesdropping, and surveillance devices on my property, my place of residence and my place of occupancy. That applies to and includes so-called "Smart Meters" and activity monitoring devices of any and all kinds as well as digital utility meters in general. Any attempt to install any such device directed at me, other occupants, my property or residence will constitute trespass, stalking, wiretapping and unlawful surveillance and endangerment of health and safety -- all prohibited and punishable by law through criminal and civil complaints. All persons, government agencies and private organizations responsible for installing or operating monitoring devices directed at or recording my activities, which I have not specifically authorized in writing, will be fully liable for any violations, intrusions, harm or negative consequences caused or made possible by those devices whether those negative consequences are justified by "law" or not.

This is legal notice.

After this delivery the liabilities listed above may not be denied or avoided by parties named and implied in this notice. These terms and conditions apply without regard to status or existence of any so-called "opt-out" contract. Civil Servant immunities and protections do not apply to the installation of so-called "smart" or digital meters due to the criminal violations they represent.

Notice to principalis notice to agent and notice to agent is notice to principal. All rights reserved.

Sincerely,

consider my signed signature here in this space
