Contact Phone: (

Nature of Complaint:

OPPOSED

E-01345A-13-0248

ELECTRIC

Docket:increased rates on solar customer
Utility:aps
Position:Con

Comments:the people who installed solar are not the problem, us, the ones that did not install solar are the problem. The ones who installed solar are helping with the peak use during the day. Aps give incentives to put these systems in. if they're not careful these people will install batteries and they won't have them as a customers. Besides that aps installed a shott system of solar that requires water to make steam. Notice its in a desert you should have not approved any project that required water.
