Members of the Arizona Corporation Commission:

Once again I am compelled to comment on the Water situation or lack of Water situation in East Verde Park. As I stated clearly in an article to the Payson Round Up "Yes We Have No Water", or that is what the newest Water Company would have us believe. Only difference now is they are attempting to use a plan which clearly will not favor the hard working Americans who live in East Verde Park, whether it be full or part time.

I have clearly demonstrated that I conserve water on a regular basis, yet now I feel that for lack of a better term, intimidation and Gestapo like techniques are hanging over our heads. Water restrictions, fines for non compliance whether intentional or not and ridiculous disconnect and reconnect fees. Should the little old lady or gentleman living here be required to go to the street and read their meters so they can assure they are in compliance?

Why does the Water Company provide us nothing but the basics and then they want more money? In order to make a profit should the Water Company not provide for those providing the profit? I guarantee you if APS didn't provide me without enough power to light more than a night light something would be done. Payson Water wants to give us less and take more, doesn't seem right does it?

I only wish members of the Commission could or would put themselves in our position. It is imperative a fair solution to all those living here is achieved.

Lou Manganiello

East Verde Park Resident
