Commissioners:

I am a concerned resident and voter. As my representative, I am asking that you help make a change that will benefit 99% of Arizonans and create good policy.

The current net metering program that benefits rooftop solar customers is unfair to those of us that don't have the technology installed on our homes. With the current system in place, I pay a higher energy rate than that of those with the solar panels to subsidize their use of the utility system.

If this problem isn't solved now, it will be more difficult to do so down the road. As more rooftop solar panel users enter the market, it's only going to drive energy prices up for non-solar customers.

Thank you.
