

ARIZONA CORPORATION COMMISSION

UTILITY COMPLAINT FORM

regard to the above property and all its occupants.

So called "Smart Meters" violate the law and cause endangerment to residents by the following factors (often facilitated via analytical software):

- o They can individually identify electrical devices inside the home and record when they are operated causing invasion of privacy.
 - o They monitor household activity and occupancy in violation of rights and domestic security.
 - o They transmit wireless signals which may be intercepted by unauthorized and unknown parties. Those signals can be used to monitor behavior and occupancy and they can be used by criminals to aid criminal activity against the occupants.
 - o Data about occupant's daily habits and activities are collected, recorded and stored in permanent databases which are accessed by parties not authorized or invited to know and share that private data by those whose activities were recorded.
 - o Those databases may be shared with, or fall into the hands of criminals, blackmailers, corrupt law enforcement, private hackers of wireless transmission, power company employees, and other unidentified parties who may act against the interests of the occupants under metered surveillance.
 - o So-called "smart" meters are, by definition, surveillance devices which violate Federal and State wiretapping laws by recording and storing databases of private and personal activities and behaviors without the consent or knowledge of those people who are monitored.
 - o It is possible for example with analysis of certain so-called "Smart Meter" data for unauthorized and distant parties to determine medical conditions, sexual activities, trades secrets, and physical locations of persons within the home, vacancy patterns and person information and habits of the occupants.
 - o So-called "smart" meters - and digital meters - cause, by intentional transmission and/or incidental disruption of house current, cancer-causing electromagnetic radiation to be emitted in proximity of the installed location and property in violation of laws against public endangerment, assault and commission of bodily harm.
 - o So-called "smart" meters are designed to transmit using microwave radio transmitters known to cause cancer and many other diseases, illnesses, and symptoms.
 - o Your legal easement to my property does not include easement for a microwaver transmitter or any networking equipment. Any such installations will be considered a violation of private property and an illegal "takings" - in other words, trespass and theft.
- O I forbid, refuse and deny consent of any installation and use of any monitoring, eavesdropping, and surveillance devices on my property, my place of residence and my place of occupancy. That applies to and includes so-called "Smart Meters" and activity monitoring devices of any kind and all kinds as well as digital utility meters in general. Any attempt to install any such devices directed to me, other occupants, my property or residence will constitute trespass, stalking, wiretapping and unlawful surveillance and endangerment of health and safety--all prohibited and punishable by law through criminal and civil complaints. All persons, government agencies and private organizations responsible for installing or operating monitoring devices directed at or recording my activities, which I have not specifically authorized in writing, will be fully liable for any violations, intrusions, harm or negative consequences caused or made possible by those devices whether those negative consequences are justified by "law" or not

Further, I refuse to acknowledge the imposition of any penalty fees or so-called extra charges by the utility for this "Opt-Out" choice notice which are not specifically authorized by the Arizona Corporation Commission.

This Is Legal Notice

After this delivery the liabilities listed above may not be denied or avoided by parties named and implied in this notice. These terms and conditions apply without regard to status or existence of any so-called "opt-out" contract. Civil Servant immunities do not apply to the installation of so-called "smart" or digital meters due to the criminal violations they represent.

Notice to principal is notice to agent and notice to agent is notice to principal. All rights reserved.
