Subject: Smart Meter

ORIGINAL

Dear Commissioners,

As a physician practicing in Sedona AZ, I would like to express my concern regarding the health and safety effects of ongoing smart meter implementation. These devices have not been proven safe and are being installed without informed consent. I am concerned for the health of my patients and my family.

I oppose smart meter installation.

Opt out service charges are discriminatory and punitive. No opt out service charge should be approved.

I have heard from my patients that APS is telling them they will have to pay opt out fees of unknown amounts if they chose to refuse the smart meter now. It is deceitful for APS to misinform their customers in this way when no opt out fee has yet been approved. The customers are not being informed by APS that they will have the option to opt back in free of charge if at some future date opt out fees are approved. APS should be required to give their customers accurate information.

Thank you for your consideration.

Sincerely,
Emily Burgoon, D.O.

Re: [REDACTED], Sedona 86351, [REDACTED]

This is a formal request to "Opt-Out" of your Smart Meter installation plans.

I requested this by phone over a year ago, and don't feel your representative was taking the request seriously.

I have read & listened to all th public discussions, reports, etc. and have found **no assurances of safety**. Also, from reports of customers in other states, I also see it is a way for you to increase the charges to the customers.

All your proposed fees for Optiing-Out are unreasonable. APS is already paying to have someone read meters... just keep the rates the same.. IF the Smart Meters were doing the reading & gave more accurate information, your costs should go down.... therefore user rates should go down!

Consider [REDACTED] Sedona (Village Of Creek), 86351 an Opt-Out address.
Mark our meter: NO Smart Meter [REDACTED]

And don't assign ridiculous fees!!

Sincerely,

Michaela Fogerty

Subject: APS Request for Smart Meter Opt Out Fees

Dear Commissioners,

I'm requesting that you deny the request from APS to charge exorbitant fees to those of us who have opted out of smart meters due to health concerns. I am retired and living on Social Security and their fees would be a huge hardship for me. I know of many people in my same situation who have not opted out due to the threat of the fees even though they are deeply concerned about the health risks. Please do the right thing for the citizens of this State.

Thank you,
Donna Frazier

Subject: Smart Meters

Hello,

I am writing to ask you to sponsor a bill to allow permanent opt outs from smart meters and to make it illegal to charge a fine of any kind for opting out. Smart meters should be illegal in Arizona.

Subject: Smart meter FEES

I am appalled at APS charging \$75.00 initial fee and \$35 monthly fee for opting out of the Smart meter. What are you doing about it?

I certainly will remember that come election time!

Subject: smart meter fees

Please do not make me pay to not get a meter than I know will effect me. I am very sensitive to the electromagnetic field. If I have to I am willing to pay something but an initial fee of \$75 and a \$30 a month fee is prohibitive. Sedona asked to not have meters until a safety study was completed. This request was totally ignored by aps. The citizen's concern is shown by the number of people who have opted out
