ORIGINAL

Dear Chairman Bob Stump:

As you know, the American people are being attacked on all issues: guns, health, religion, education, government, The Constitution, etc. The intentional purpose of the Marxists initiating and orchestrating the attacks is to cause personal and public chaos and to destroy America.

Another of their purposes is to weaken the American people--to make them ill, mentally or physically, so they won't be able to resist a dictatorial takeover. We see that in the effort to legalize drugs to a recreational level, to mandate vaccines, in selling food in toxic cans, in pesticides, in the sale of nutrition-less food made with dangerous additives, in promotion of microwaves, etc.

Another of the attacks is on health care: Obamacare, which we have heard a lot about--most of it untrue.

Another attack that is raging coast to coast, but which the controlled media haven't allowed much exposure is Smart Meters (aka Weaponized Spy Devices).

We're in a total siege!

I'm writing this letter to request that you assign honest radiation experts to investigate the effects of Smart Meters. If the results warrant any of the following measures, that you will support them:

1. Make it illegal for an Arizona electric company to charge opt outs
2. Make Smart Meters illegal in Arizona
3. Notify every state about the findings of the radiation experts

You can do this. You are all five Republicans. You have been placed in your strategic position for a reason by a power beyond us all. Do your duty. Be an important part of saving the country, freedom, and all of our families.

Freedom forever,

Arden Druce

Just call Smart Meter a weaponized spy device

Editor:

Big Brother has a new agenda: He wants a "Smart Meter" installed in every home in America.

The electric company is currently "upgrading" electric meters. By "upgrading" they mean replacing harmless meters with meters that produce EM radiation that can cause severe health problems from chronic fatigue to cancer.

When the electric company notified me it would be installing a "new automated meter" (better known as a "Smart Meter" or a "weaponized spy device") at my home, I opted out. The fine for opting out is usually \$70, with possibly a \$30 monthly fee, too.

To protect our health by opting out, we have to pay a penalty. Could all of the people in the community afford their penalties or would they have to accept a toxic assault? And, hey, isn't Obamacare demanding a penalty if we opt out of it?

Have we been asleep? When did freedom end and totalitarianism begin?

The former Microsoft Canada President called wireless radiation "our biggest modern health threat."

Massachusetts' largest electric utility, Northeast Utilities, coura-

geously said, "There is no rational basis for the implementation of smart meters"

In Maryland, the MSMA ((Maryland Smart Meter Awareness) is fighting their electric company's fees for opting out.

A California community returned its smart meters to their electric company and said, "No thanks."

What you can do: Write to one or more of the commissioners of the Corporation Commission: Chairman Bob Stump, Commissioners Gary Pierce, Brenda Burns, Bob Burns, Susan Bittersmith. All five represent the whole state. Ask the commissioners to sponsor a bill to allow permanent opt outs from Smarts Meters and make it illegal to charge a fine of any kind for opting out. Ask them to make Smart Meters illegal in Arizona. Mailing address: Corporation Commission, 1200 W. Washington, Phoenix AZ 85007.
