Dear Chairman Stump,

Our business has made improvements to the energy efficiency technologies and has reaped the benefits already. The money saved on utility bills can and has been spent to improve my business.

APS has been amazing in offering aid through their rebate plans to help pay for the changes to our business. These rebates make it possible for us to improve our energy efficiency, which in turn can help us to save money each month.

I believe it is of great importance that the energy efficiency implementation plan for APS moves forward and in a manner that furthers energy efficiency in our state. Thank you for your efforts to do this and please do not vote to waive any aspect of the energy efficiency plan in the future.

Thank you for your consideration,

AZ CORP COMMISSION
