Dear Chairman Stump,

Energy efficiency is a potential area of improvement that could have immense positive benefits if supported correctly. If the energy efficiency plan for APS adopted by the Commission is implemented the benefits will be seen statewide. Efficient use of energy is a necessary practice for the future, especially if the population of our state continues to rise. We need to begin to prepare for the future and energy efficiency is a great place to start.

Thank you for your commitment and efforts regarding energy efficiency; although I am disappointed with your decision to vote to waive part of the energy efficiency rule.

Thank you for your continued efforts,

Todd Cisto
