Dear Commissioner Stump:

I am a member of Out Of the Blue Processors, LLC. I am aware of that Corporation Commission has been investigating the company and Mr. Mark Steiner, its Manager. I should let you know that an investigator contacted me some time ago. I let the investigator know at that time that I was satisfied with the investment, Mr. Steiner's efforts, and the progress being made. I am in regular communication with Mr. Steiner and appreciate his willingness to spend time keeping me abreast of the situation.

I have been informed that a hearing is scheduled to begin on April 28, 2014. I am concerned that such a hearing at this time is premature, if not unwarranted, and could have adverse affects of the outcome of my investment. There are several projects underway with Lunsford Consulting, LLC that are making good progress. Successful completion of one or more of the projects will produce returns for my investment in Out of the Blue Processors, LLC.

I do not understand why the Commission continues to pursue a company with such promise. I'm not sure why my input to the Commission has not been recognized. I have also learned that other investors have had similar experiences and feel the same way.

I would appreciate it if you could postpone the hearing and, if possible, terminate the investigation, so that a successful investment is not converted into an unsuccessful investment by the zeal of the Commission's staff to "win," before the investment matures and returns are realized from it.

Thank you,

*Barbara Moore*
