Docket: Application of Utility Source LLC for Increase in its rates for water and sewer

DocketNo:
Utility: Utility Source LLC
Position: Con
Email:

Comments: I think the 98.14 % rate increase for water and the 250.30% rate increase for sewer is too great an increase for users. According to their example using 3500 gallons of water the new rate would be \$141.55 including both water and sewer. The rate today is \$ 75.74, that is a 100% increase. I am a retired person and this rate increase would be a financial hardship on me. This increase would require from me one months SS income for the year to pay for water and sewer which are a necessary part of my life. Since I do not have another water company to go to, I am being held captivate with these high rate increases. I am asking the AZ Corporation Commission to give great thought and consideration on this increase amount, a more moderate increase is more in line with users income. Don Fethkenher
