concerning voltage effects of smart meters

4/27/2014

To: Scott Austin, Phoenix  
AZ Corp Commission  
and Eric G. Gray, Phoenix  
and [unclear] office

Ms. S. Rafter  
10575 E. Quail Run Rd  
Cornville, AZ 86325-5828

I and several neighbors have experienced adverse health effects since the installation of smart meters on our neighborhood. Our houses are older and not strongly built as houses in Phoenix are, as perhaps this is why.

In addition, a neighbor's power all blew after installation of smart meter which was installed despite her getting out.

In addition several transformers blew out after installation of smart meters, or many blown. They were working fine before this.

PPS should not be allowed to charge people for getting out, as smart meters are ~~making~~ people ill. Please have commission (from Phoenix, AZ)

Docket Nos. E-000000-11-0328, [unclear]
