Re: Notice of Filing – Tucson Electric Power Company’s 2014-2015 Energy Efficiency Plan
Docket No. E- 01933A-13-0183

Tucson Electric Power Company (“TEP”) hereby gives notice that the 2014 Energy Efficiency (“EE”) Plan filed on June 3, 2013 in this docket in compliance with A.A.C. R14-2-2405.A, and modified by Decision No. 73912 (June 27, 2013), should also be considered the 2015 Implementation Plan. There are no updates to the filed Implementation Plan budget or programs; however, Commission Staff has requested that TEP provide the impact on its EE Standard compliance and Demand-Side Management Surcharge regarding Freeport McMoRan. Please see Attachment 1 for the requested information. Accordingly, TEP requests that the Commission approve its 2014-2015 EE Plan.

If you have any questions, please contact me at (520) 884-3680.

Sincerely,

Jessica Bryne

ATTACHMENT 1

The following tables show how the exemption requested by Freeport McMoRan would affect TEP's compliance with the EE Standard for the years 2011-2015, including and excluding the exemption requested by Freeport McMoRan. The exemption would exclude Freeport McMoRan's total load, as TEP does not separately meter the company's mining and administrative usage.

TEP is not requesting a reset of the existing DSM Surcharge ("DSMS") as part of this plan.

The data for Year 2013 is updated based on actual results reported in TEP's Annual Demand-Side Management Progress Report. The forecasted figures for 2014 and 2015 reflect expected participation. These tables will replace Table 1.1 on page 1 of TEP's 2014 Energy Efficiency Implementation Plan.
