DOCKETED BY

Dear ACC,

I am writing to request more thorough investigations regarding Smart Meter's and their relation to adverse health affects.

We had our meter switched within the last two months and I have suffered tremendous bouts of insomnia and migraine headaches. I am a healthy, middle aged person who has never had any problems sleeping or with migraines in my entire life.

I have recently requested that APS re-install the old style of meter to our home. I was informed that at some point I may be charged a fee for having the old style meter. This seems very wrong and unjust. Please do not allow APS to charge those of us who cannot tolerate the radio frequency waves. APS had a profit of over \$38.2 million last year, I'm sure that they can justify paying a meter reader to come to our homes if necessary.

Thank you for reading this.

Sincerely,

Tracy Wood
