1st Revised Sheet No. 3
Original Sheet No. 3.2
2nd Revised Sheet No. 219
Original Sheet No. 219.2

This filing is made in compliance with the Federal Communication Commission's (FCC) Title 47: Telecommunication; Part 51-Interconnection; Subpart J-Transitional Access Service Pricing; §51.909 Transition of rate-of-return carrier access charges; Step 3.

The National Exchange Carrier Association (NECA) told the member companies that they did not expect to be required to adjust capped interstate switched access rates for July 1, 2014, to reflect changes associated with the 2014 pool election changes. Upon further evaluation, pool election changes increased these rates by 1.429 percent, an increase the FCC did not consider de minimis. As a result, NECA adjusted both interstate and intrastate switched terminating access rate with intrastate rates at parity with interstate rates.

The rates for the Terminating Local Switching element combine the existing Local Switching and Information Surcharge rates and reflect the required 1/3 reduction of the difference between the existing capped interstate End Office rates and \$0.005. The Terminating Information Surcharge rate will be at \$0.00 consistent with the requirement specified in the Clarification Order.
