INTERCITY TELECOMMUNICATIONS SERVICES

4. SERVICE AND RATE DESCRIPTION4.1 Message Telecommunications Service

Unless otherwise noted herein, Message Telecommunications Services (except SPRINT Service) are available only to a maximum of two residential phone lines, per location.

.1 SPRINT Service #

(T)

SPRINT Service is an intercity service which is available for use by business and residential subscribers 24 hours a day. The subscriber will use one of the three following dialing patterns to gain access to the Sprint network. 1) In Feature Group D exchanges, the subscribers' telephone line(s) are programmed by the local telephone company to automatically route "1+" calls to the carrier's network. 2) In non-Feature Group D exchanges, subscribers dial an access number, receive a second dial tone from the Sprint switch, then dial their authorization code and the called telephone number. 3) Customers who have selected Sprint as their secondary interexchange carrier and some casual callers dial 1010XXXX and then the called telephone number.

Rate periods for business customers are set forth in Section 3.14.2.1 and rate periods for residential customers are set forth in Section 3.14.2.2.

Subscribers may originate SPRINT Service from the originating locations referenced in Section 2 and may terminate calls in all locations in another LATA within the state of Arizona.

SPRINT Service is provided as the intrastate add-on service to business and residential interstate SPRINT Service and, accordingly, the SPRINT Service monthly recurring charge is located in Sprint's interstate Residential Schedule located at www.sprint.com/ratesandconditions. Charges for SPRINT Service are based on the distance and duration of the call, monthly usage, and the rate period (Day, Evening, Night/Weekend) when the call is placed. If Feature Group D access is used, the distance will be measured from the rate center of the calling number as represented by the ANI to the rate center of the called number. If Feature Group A access is used, the distance will be measured from the rate center of the Feature Group A access number to the rate center of the called number. If Feature Group B access is used the distance will be measured from the rate center of the "tandem location" or network site to which the Feature Group B line is connected. Usage rates for SPRINT service are set forth in Section 5.1.

Directory Assistance, Operator Services, and FÖNCARD are available to Sprint subscribers. Rates for residential SPRINT Service are set forth in Rate Schedule 1.A. Business MTS, formerly SPRINT Service, per-minute rates are set forth in Rate Schedule 1.4.

- # Effective November 1, 2014, Sprint Service is no longer available to new customers. In addition, existing customers may not add, move or make changes to their existing service. This service is limited to lines in service for existing customers.

The charge for this portion of the Clearline 45 Service is for transportation of traffic between the Carrier's POPs. Charges are based on airline mileage as calculated using the formula presented Section 4.3 Mileage Between Rate Centers.

Each Clearline 45 Service circuit connected between two subscriber's interface points will be construed as an individual circuit for rate compilation purposes.

The charge for a Clearline 45 Service circuit is calculated by adding the fixed charge plus the charge per mile times the total number of V&H miles.

* Sprint's Base Interexchange Charges mirror the Company's interstate Clearline 45 Service Monthly Fixed Charge for Fixed Charge per Circuit and charge Per Intercity Circuit Mile. See Sprint's Business Schedule 7 at www.sprint.com/ratesandconditions.

Effective January 17, 2008, Private Line Services will no longer be available to new customers. Existing customer's term plans may not be renewed or extended beyond June 2017. (C)

Access facilities from the subscriber's premise to the Carrier's POP are required at both ends of the Clearline 45 Service.

Access can either be leased by local exchange company (LEC) DS-3 access lines or by other access arrangements. If Sprint obtains the DS-3 access lines for the subscriber from the LEC, the subscriber's monthly recurring charge (MRC) for the access portion of the service is listed following. The Special Access Surcharge is applied in accordance with the LEC's Intrastate Access Tariffs. Carrier will cease billing the Special Access Surcharge upon receipt of the Exemption Certification.

Central Office connection charges will apply in all cases where Sprint connects to any local access facilities to provide Clearline 45 Service.
