I am writing this letter in regards to the unfair water rates that have been imposed to the residents of Russell Ranch from EPCOR Water. These rates are unfair and some of the highest in the Western United States. I am uncertain the reason why we as a community (Russell Ranch) cannot be de-consolidated from the Agua Fria Water District due to its size and also that our community has its own waste water treatment capabilities, that has already been paid for by the residents. This action has already been done with the community of Anthem and should be done for the community of Russell Ranch. It is completely unfair to be taking up the slack of the district when we should not have been put there in the first place.

Consider this information and opinion of a resident in Maricopa County for Three generations now and remove your community from being taken advantage of a situation we should have been kept out off to begin with. Thank you for the time and opportunity to voice my concerns.
