I.	Introduction.....	1
II.	Discussion of Energy Efficiency Enabling Provision Results.....	2
III.	Summary	4
Attachment I	Summary of Monthly Bill Impacts With and Without Energy Efficiency Enabling Provision Adjustments by Sector and Rate Schedule	

SOUTHWEST GAS CORPORATION

I. INTRODUCTION

Southwest Gas Corporation hereby submits its 2014 second quarter report on the performance of the Energy Efficiency Enabling Provision (EEP).

In its Opinion and Order in Docket No. G-01551A-10-0458, Decision No. 72723, the Arizona Corporation Commission (Commission) authorized Southwest Gas Corporation (Southwest Gas or the Company) to implement the EEP, whereby Southwest Gas was granted authority to implement a monthly weather component that adjusts customer bills when actual weather during the winter months varies from the normalized weather used in the development of authorized rates. The EEP also tracks the non-weather differences between the Company's authorized revenues per customer and its actual revenues per customer and includes a process to recover under-collections from and return over-collections to customers on an annual basis. The combination of these two components results in the Company recovering its Commission-authorized revenue per customer - no more, no less.

The monthly weather adjustment affected bills for service rendered through April 30. Southwest Gas' Phoenix and Tucson customers experienced weather during April 2014 that was approximately forty seven (47) percent warmer overall than the historical

average. While a number of customers received bill adjustments consistent with warmer than normal weather, customers in billing cycles that experienced colder than normal weather received bill credits. The weather experienced during April 2014 was similar to the weather during April 2013 which was approximately fifty (50) percent warmer overall than the historical average. In that prior reporting period of 2013, the majority of customers also received bill adjustments consistent with warmer than normal weather.

In addition to the monthly weather adjustment, customers received a credit of \$0.00387 per therm during April through June 2014 for the non-weather component of the EEP.

II. DISCUSSION

This report is for the quarterly period April 1, 2014 through June 30, 2014. Bill analyses have been prepared by residential and non-residential sectors and by rate schedule. The rate schedules included in the residential sector are Single-Family Residential (Schedule No. G-5), Multi-Family Residential (Schedule No. G-6), Single-Family Low-Income Residential (Schedule No. G-10), and Multi-Family Low-Income Residential (Schedule No. G-11). The rate schedules included in the non-residential sector are Small General Service (Schedule No. G-25(S)), Medium General Service (Schedule No. G-25(M)), Large-1 General Service (Schedule No. G-25(L1)), and Large-2 General Service (Schedule No. G-25(L2)).

As described above, the EEP contains two components, a monthly weather adjustment and an annual non-weather component to ensure the Company recovers its

Commission authorized revenue per customer. The monthly weather adjustment works to mitigate the “peaks and valleys” that abnormal weather can have on customer bills. The non-weather component compares authorized revenues and actual revenues and recovers or returns differences between authorized and actual revenues in a per therm rate adjustment. In April 2013, Southwest Gas filed an application with the Commission, Docket No. G-01551A-10-0458, seeking to return a deferred credit balance in the non-weather revenue component of approximately \$1.9 million dollars to customers. The application was approved in December 2013 and a credit of \$0.00387 per therm became effective January 1, 2014. This quarterly report shows the effect of both components on customer bills during the second quarter of 2014.

Table 1 summarizes the second quarter bill impacts for the residential and non-residential sectors. Average EEP adjustments were consistent with weather that was warmer than normal, which were offset by the credit to customers for the non-weather component of the EEP.

Table 1- Average Bill by Sector

	<u>W/EEP Adjustment</u>	<u>W/O EEP Adjustment</u>	<u>Difference</u>
Residential Sector	\$28.54	\$27.86	\$0.68
Non-Residential Sector	\$341.57	\$340.23	\$1.34

Table 2 summarizes the quarterly results for each customer class included in the EEP.

Table 2- Average Bill by Customer Class

	<u>W/EEP Adjustment</u>	<u>W/O EEP Adjustment</u>	<u>Difference</u>
Single Family Residential	\$29.09	\$28.38	\$0.71
Low Income Single Family	\$21.70	\$21.21	\$0.49
Multi Family Residential	\$22.47	\$22.24	\$0.23
Low Income Multi Family	\$19.22	\$19.03	\$0.19
Small General Service	\$43.11	\$42.70	\$0.41
Medium General Service	\$225.17	\$223.86	\$1.31
Large-1 General Service	\$1,102.02	\$1,098.54	\$3.48
Large-2 General Service	\$5,310.87	\$5,303.65	\$7.22

Attachment I contains schedules showing the detail of the differences between average bills with the EEP adjustment and average bills without the EEP adjustment for residential/non-residential sectors and for each rate schedule for the quarter and by month for April, May and June 2014.

III. SUMMARY

As illustrated in the tables above, the EEP continues to perform as intended. The monthly weather adjustment has stabilized customer bills by reflecting normal weather conditions and providing customers timely relief from colder than normal weather when their natural gas bills are the highest, and upward adjustments to bills when the weather is warmer than normal and bills are the lowest. The non-weather revenue per customer component ensures the Company only recovers its authorized revenue. Customers are currently experiencing the benefit of the non-weather component as the deferred balance is refunded through rates.

The Company's next quarterly report will reflect the difference between July, August and September bills with and without the annual non-weather component of the EEP. The monthly weather adjustment will not affect bills in the next quarterly report.

Southwest Gas will continue to closely monitor the performance of the EEP and looks forward to continuing to share this information with the Commission.
