Regarding proposed Consolidation of Wastewater Rates by EPCOR:

I assume that because of where the 5 communities involved are located, (probably distance from the treatment plant is the key) these waste water treatment rates vary. Unless there are more compelling reasons, common sense and reasonable logic tells me that each community should pay their own way. Why should others pay to accommodate those who wish to live in a more distant location?

I live in SCW because of what is here and because it is what I can afford on my 1989 pension – no raises since then. I really can't afford to pay for neighbors' utilities – nor should I have to.

As best, as I can approximate at this time, my waste water treatment fee will increase more than \$25 per month. Why? To pay for utilities used by other people.

I strongly urge you to deny ANY consolidation

(all 5 communities and/or Corte Bella)

with SCW.
