DOCKETED

AUG 25 2014

Re: W-02077A-12-0493; Hopeville Water Company, Inc.

DOCKETED BY 

Dear Commissioners,

Maricopa County Environmental Services Department (MCESD) received notification from Hopeville Water Company, Inc. (Hopeville) (AZ0407633) on August 19, 2014 regarding their request to the Arizona Corporation Commission for an expedited hearing on the matters of canceling the utility's CC&N and application to transfer its assets to the City of Buckeye. MCESD currently holds an open enforcement case against Hopeville for multiple violations of rules and regulations established under the Safe Drinking Water Act and considers this utility to be operating in a status of non-compliance. This case has been presented in Maricopa County Superior Court and on July 18, 2014 default judgment against Hopeville. Based on the current compliance status of Hopeville, MCESD supports any provision that can be made to assist Hopeville with returning to and maintaining compliance with the rules and regulations established under the Safe Drinking Water Act.

Should you need additional information or wish to discuss that matter in further detail, please do not hesitate to contact, Korissa Entringer, Drinking Water Program Manager at (602) 506-6935.

Sincerely,

John Kolman, RS, MBA  
Director  
Maricopa County Environmental Services
