RE: Docket # SW-01303A-09-0343 – EPCOR Wastewater

Mister Chairman;

Please accept this cover letter and the attached 40 signed form letters from Verrado residents, individual voters, making a strong case in favor of full consolidation of wastewater districts under EPCOR's management. We respectfully request you consider these sentiments and accept these letters be included as part of the docket record, expressing resident support for this issue.

Thank you for your time and assistance with this matter. If you have any questions, please contact me at the email address above or by phone at (402) 957-6387.

On behalf of Verrado Residents,

Sincerely,

Michael C. Harris

Subject: ACC docket: SW-1303A-09-0343

Mister Chairman,

As a resident of Verrado, I respectfully urge you to vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result. The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a substation or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

Full consolidation is the right decision, not just for Agua Fria, but for all EPCOR customers, who will, sooner or later, be in need of subsidization to offset the costs of essential infrastructure upgrades, installations and improvements. One company, one district, one rate. It's simply the fair thing to do. Water is life, and should not be held hostage in such a manner. Thank you for your consideration in this matter. I look forward to seeing a positive outcome for all of EPCOR's customers as a result of your vote.

Sincerely,

Petition for the Full Consolidation of EPCOR Wastewater Districts

Mister Chairman,

As a resident of Verrado, I respectfully urge you to cast your vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result.

The issue has been clouded with a great deal of sensationalism and legal maneuvering, more appropriate to a class action suit than to the solemn matter of providing essential utilities at attainable rates for families across the valley. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers.

EPCOR Arizona provides over-arching resources to all of the districts in question, including personnel in the field and in the customer service offices, as well as materials required to service, maintain, upgrade, and replace the water and wastewater infrastructure. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts under consideration, only Agua Fria has significant opportunity for growth. Sun City, Sun City West, and Anthem are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through

Water Action Committee

Petition for the Full Consolidation of EPCOR Wastewater Districts

policies that promote growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

As a resident of Verrado, I respectfully urge you to vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result. The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

Full consolidation is the right decision, not just for Agua Fria, but for all EPCOR customers, who will, sooner or later, be in need of subsidization to offset the costs of essential infrastructure upgrades, installations and improvements. One company, one district, one rate. It's simply the fair thing to do. Water is life, and should not be held hostage in such a manner. Thank you for your consideration in this matter. I look forward to seeing a positive outcome for all of EPCOR's customers as a result of your vote.

Sincerely,

Petition for the Full Consolidation of EPCOR Wastewater Districts

Mister Chairman,

As a resident of Verrado, I respectfully urge you to vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result. The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

Full consolidation is the right decision, not just for Agua Fria, but for all EPCOR customers, who will, sooner or later, be in need of subsidization to offset the costs of essential infrastructure upgrades, installations and improvements. One company, one district, one rate. It's simply the fair thing to do. Water is life, and should not be held hostage in such a manner. Thank you for your consideration in this matter. I look forward to seeing a positive outcome for all of EPCOR's customers as a result of your vote.

Sincerely,

Angela Medina

The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

Full consolidation is the right decision, not just for Agua Fria, but for all EPCOR customers, who will, sooner or later, be in need of subsidization to offset the costs of essential infrastructure upgrades, installations and improvements. One company, one district, one rate. It's simply the fair thing to do. Water is life, and should not be held hostage in such a manner. Thank you for your consideration in this matter. I look forward to seeing a positive outcome for all of EPCOR's customers as a result of your vote.

Sincerely,

Petition for the Full Consolidation of EPCOR Wastewater Districts

Mister Chairman,

As a resident of Verrado, I respectfully urge you to vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result. The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. RE: Docket # SW-01303A-09-0343 – EPCOR Wastewater

To Whom it May Concern;

Please accept this cover letter and the attached 30 signed form letters from Verrado residents, individual voters, urging the Commission to vote in favor of full consolidation of wastewater districts under EPCOR's management. We respectfully request these letters be included as part of the docket record, expressing resident support for this issue.

Thank you for your time and assistance with this matter. If you have any questions, please contact me at the email address above or by phone at (402) 957-6387.

Dear Sir or Madam;

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include: Agua Fria, Anthem, Sun City, and Sun City West. In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer.

Thank you for your time and consideration on this extremely important matter.

Sincerely,

Verrado Resident

Buckeye, AZ 85326

Subject: ACC docket: SW-1303A-09-0343

Dear Sir or Madam;

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include: Agua Fria, Anthem, Sun City, and Sun City West. In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer.

Thank you for your time and consideration on this extremely important matter.

Sincerely,

Buckeye AZ 85396

Subject: ACC docket: SW-1303A-09-0343

Dear Sir or Madam;

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include: Agua Fria, Anthem, Sun City, and Sun City West. In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be *distributed across a much larger ratepayer group with **full consolidation***, reducing the impact to any single ratepayer.

Thank you for your time and consideration on this extremely important matter.

Sincerely,

Verrado Resident

Petition for the Full Consolidation of EPCOR Wastewater Districts

Mister Chairman,

As a resident of Verrado, I respectfully urge you to vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result. The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

Full consolidation is the right decision, not just for Agua Fria, but for all EPCOR customers, who will, sooner or later, be in need of subsidization to offset the costs of essential infrastructure upgrades, installations and improvements. One company, one district, one rate. It's simply the fair thing to do. Water is life, and should not be held hostage in such a manner. Thank you for your consideration in this matter. I look forward to seeing a positive outcome for all of EPCOR's customers as a result of your vote.

Sincerely,

Subject: ACC docket: SW-1303A-09-0343

Mister Chairman,

As a resident of Verrado, I respectfully urge you to vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result. The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

Full consolidation is the right decision, not just for Agua Fria, but for all EPCOR customers, who will, sooner or later, be in need of subsidization to offset the costs of essential infrastructure upgrades, installations and improvements. One company, one district, one rate. It's simply the fair thing to do. Water is life, and should not be held hostage in such a manner. Thank you for your consideration in this matter. I look forward to seeing a positive outcome for all of EPCOR's customers as a result of your vote.

Sincerely,

09.04.2014

RE: Docket # SW-01303A-09-0343 – EPCOR Wastewater

To Whom it May Concern;

Please accept this cover letter and the attached 40 signed form letters from Verrado residents, individual voters, urging the Commission to vote in favor of full consolidation of wastewater districts under EPCOR's management. We respectfully request these letters be included as part of the docket record, expressing resident support for this issue.

Thank you for your time and assistance with this matter. If you have any questions, please contact me at the email address above or by phone at (402) 957-6387.

On behalf of Verrado Residents,

Sincerely,

Subject: ACC docket: SW-1303A-09-0343

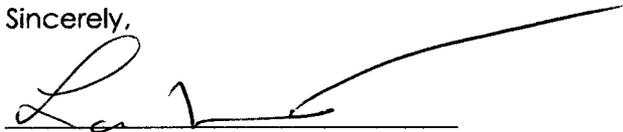

Dear Sir or Madam;

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include: Agua Fria, Anthem, Sun City, and Sun City West. In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer.

Thank you for your time and consideration on this extremely important matter.

Sincerely,

Verrado Resident

In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer.

Thank you for your time and consideration on this extremely important matter.

Sincerely,

Verrado Resident

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include: Agua Fria, Anthem, Sun City, and Sun City West. In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer.

Thank you for your time and consideration on this extremely important matter.

Sincerely,

Mae Jones

RE: Docket # SW-01303A-09-0343 – EPCOR Wastewater

Mister Chairman;

Please accept this cover letter and the attached 40 signed form letters from Verrado residents, individual voters, making a strong case in favor of full consolidation of wastewater districts under EPCOR's management. We respectfully request you consider these sentiments and accept these letters be included as part of the docket record, expressing resident support for this issue.

Thank you for your time and assistance with this matter. If you have any questions, please contact me at the email address above or by phone at (402) 957-6387.

On behalf of Verrado Residents,

Sincerely,

Michael C. Harris

Petition for the Full Consolidation of EPCOR Wastewater Districts

Water Action Committee

To: Bob Stump, Chairman

Phoenix, Arizona 85007

From: GEMMA AYUBAN
20787 W. EASTVIEW WAY
BUCKEYE, AZ 85396

Subject: ACC docket: SW-1303A-09-0343

Mister Chairman,

As a resident of Verrado, I respectfully urge you to vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result. The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

Full consolidation is the right decision, not just for Agua Fria, but for all EPCOR customers, who will, sooner or later, be in need of subsidization to offset the costs of essential infrastructure upgrades, installations and improvements. One company, one district, one rate. It's simply the fair thing to do. Water is life, and should not be held hostage in such a manner. Thank you for your consideration in this matter. I look forward to seeing a positive outcome for all of EPCOR's customers as a result of your vote.

Sincerely,

Gemma Ayuban

As a resident of Verrado, I respectfully urge you to vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result. The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

Full consolidation is the right decision, not just for Agua Fria, but for all EPCOR customers, who will, sooner or later, be in need of subsidization to offset the costs of essential infrastructure upgrades, installations and improvements. One company, one district, one rate. It's simply the fair thing to do. Water is life, and should not be held hostage in such a manner. Thank you for your consideration in this matter. I look forward to seeing a positive outcome for all of EPCOR's customers as a result of your vote.

Sincerely,

Aniceta Ayuban

As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

Full consolidation is the right decision, not just for Agua Fria, but for all EPCOR customers, who will, sooner or later, be in need of subsidization to offset the costs of essential infrastructure upgrades, installations and improvements. One company, one district, one rate. It's simply the fair thing to do. Water is life, and should not be held hostage in such a manner. Thank you for your consideration in this matter. I look forward to seeing a positive outcome for all of EPCOR's customers as a result of your vote.

Sincerely,

Petition for the Full Consolidation of EPCOR Wastewater Districts

Mister Chairman,

As a resident of Verrado, I respectfully urge you to vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result. The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a substation or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

Full consolidation is the right decision, not just for Agua Fria, but for all EPCOR customers, who will, sooner or later, be in need of subsidization to offset the costs of essential infrastructure upgrades, installations and improvements. One company, one district, one rate. It's simply the fair thing to do. Water is life, and should not be held hostage in such a manner. Thank you for your consideration in this matter. I look forward to seeing a positive outcome for all of EPCOR's customers as a result of your vote.

Sincerely,

Petition for the Full Consolidation of EPCOR Wastewater Districts

Water Action Committee

Mister Chairman,

As a resident of Verrado, I respectfully urge you to vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result. The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

Support for the Full Consolidation of EPCOR Wastewater Districts

To: Arizona Corporation Commission
Commissioners Wing 1
200 W. Washington - 2nd Floor
Phoenix, Arizona 85007

From: Michelle Harris
20375 W. Springfield St
Buckeye, AZ 85396

Subject: ACC docket: SW-1303A-09-0343

Dear Sir or Madam;

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include: Agua Fria, Anthem, Sun City, and Sun City West. In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer.

Thank you for your time and consideration on this extremely important matter.

Sincerely,

Verrado Resident

Water Action Committee

Petition for the Full Consolidation of EPCOR Wastewater Districts

By signing the attached signature sheets, the undersigned expresses support of the following petition:

In regards to ACC docket: SW-1303A-09-0343

The Residents of Verrado:

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include:

- Agua Fria
- Anthem
- Sun City
- Sun City West

Justification:

- Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix
- That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer
- That **deconsolidated** rates are negatively impacting the growth and development of our community
- That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable.
- cost-sharing, where feasible, is fair and reasonable.
- Simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district
- Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer

Petition for the Full Consolidation of EPCOR Wastewater Districts

Water Action Committee

To: Bob Stump, Chairman
Arizona Corporations Commission
Commissioners Wing 1
200 W. Washington - 2nd Floor
Phoenix, Arizona 85007

From: VICKI MACKENZIE
4315 N GOLF DR UNIT I
BUCKEYE, AZ

Subject: ACC docket: SW-1303A-09-0343

Mister Chairman,

As a resident of Verrado, I respectfully urge you to vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result. The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

Full consolidation is the right decision, not just for Agua Fria, but for all EPCOR customers, who will, sooner or later, be in need of subsidization to offset the costs of essential infrastructure upgrades, installations and improvements. One company, one district, one rate. It's simply the fair thing to do. Water is life, and should not be held hostage in such a manner. Thank you for your consideration in this matter. I look forward to seeing a positive outcome for all of EPCOR's customers as a result of your vote.

Sincerely,

Vicki Mackenzie

Bob Stump, Chairman
Arizona Corporation Commission
Commissioners Wing
1200 W. Washington - 2nd Floor
Phoenix, Arizona 85007

Dear Mr. Stump:

I am a 100% Disable Combat Marine living from V.A. and Social Security Disability income. I am 70 Years Old. My wife Vicky is 64 and has only Social Security Income. Our income is dramatically stressed by our \$250.00 per month average water bill. Vicky and I are the only people living in our home in Verrado. Vicky and I recently attended a meeting during which the waters rates of other communities we listed compared to ours in Verrado. We were stunned.

The implore you to lead the way for Full Consolidation of the water Districts listed below or at least those closely related to a full Consolidation will be yours and the other members top priority. This disparity in charges is staggering and insulting. I voted for you as did my wife, Daughter, and son-in-law, who live just five blocks from us in Verrado.

In the United States Marine Corps, I served in 1966 and 1967 with 1st Platoon, Delta Company, 1/1/1. I served as a Rifleman for 10 months and was involved in more than 115 Firefight and two very large scale battles each lasting 15 days in the jungle covered hills of the DMZ against a several Divisions consisting of more than 15,000 North Vietnamese army Soldiers. I also served for a number of months as our Battalion Night Sniper. Sire I love our country and have fought long and hard suffering hearing loss and Cancer from exposure to Agent Orange. I was supposed to die by mid-2000 but by the grace of God was spared. The extremely high waste water charges are hard to make and to accept. I have given much to our country

and rely of good people like you to help us with full consolidation and relief from the high charges.

The chart included was provided by WAC Volunteers. Needless to say we were shocked.

Thank you for reading my letter. I hope to hear from you in the near future. Please sir, help us.

Sincerely,

Frank L. Martin

Frank and Vicki Martin

1ST Platoon, Delta Company, 1/1/1 Republic of South Viet Nam

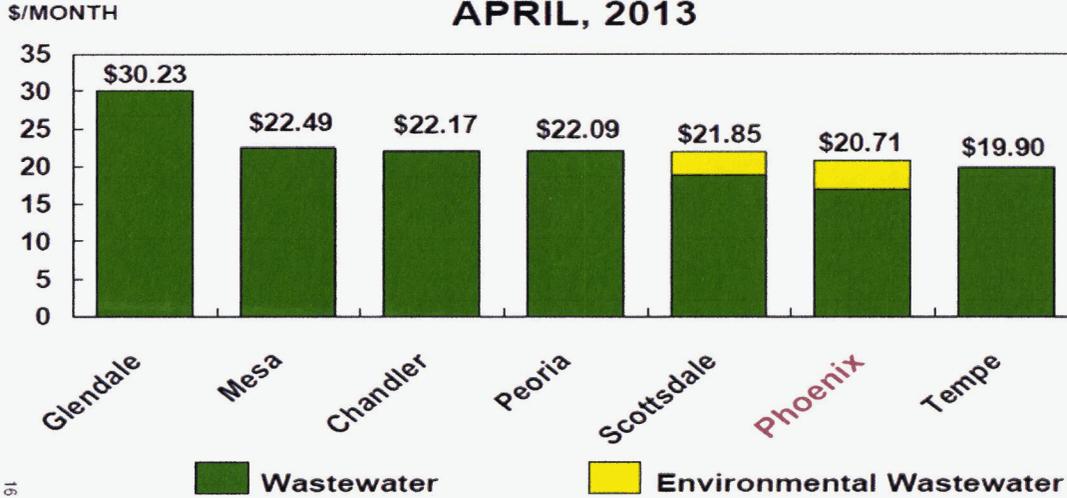

By the Numbers:

According to a recent EPCOR assessment, Agua Fria customers use an average of 11,000 gallons a month in water. Wastewater consumption is calculated at 100% of your regular water usage and is capped at 7,000 gallons of usage.

In Verrado, and across the entire Agua Fria Wastewater district, customers pay approximately \$106 each month for just wastewater. You can only pay a little less if your total water usage is below 7,000 gallons a month.

Here's a chart from a 2013 study about the average rates across Phoenix:

**WASTEWATER RATE COMPARISON RANKING
AVERAGE SINGLE-FAMILY MONTHLY BILL
PHOENIX METRO AREA
APRIL, 2013**

That means, on average, these areas are paying \$22.78 for wastewater. Verrado residents are paying **more than 400%** of the average Phoenix customer.

And here are the real-dollar impacts based on EPCOR's three options:

District rates (current)

- Agua Fria/Basic charge $\$57.36/\text{volume } 7\text{k} \times 6.9782 (48.85) = \106.21
- Anthem/Basic charge $\$33.28/\text{volume } 7\text{k} \times 4.3587 (30.51) = \63.79
- Sun City/Basic charge $\$18.11/\text{no volume charge} = \18.11
- Sun City West/Basic charge $\$30.96 \text{ no volume charge} = \30.96

Next scheduled wastewater increase(Agua Fria)/decrease (Anthem) in January/February 2015.

- Agua Fria/Basic charge $\$66.12/\text{volume } 7\text{k} \times 7.97 (55.79) = \121.91
- Anthem/Basic charge $\$30.00/\text{volume } 7\text{k} \times 3.75 (26.25) = \56.25

Proposed wastewater fee for Anthem/Agua Fria reconsolidation

- Basic charge $\$39.84/\text{volume } 7\text{k} \times 4.99 (34.93) = \74.77

Proposed wastewater fee for full consolidation: \$34.30 (no volume charge)
