Subject: Comment on Verrado's response to Anthem's request for stay: Docket No. SW-01303A-09-0343

Dear Chairman Stump and Commissioners:

I believe Verrado's response (docketed Sept. 2, 2014)for Anthem's request for a stay, to wit:

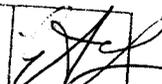

**ASSOCIATION, INC.'S
RESPONSE TO ANTHEM COMMUNITY
COUNCIL'S REQUEST FOR
RECONSIDERATION OF
COMMISSION'S DENIAL OF MOTION
FOR STAY OF PROCEEDINGS**

ORIGINAL

may be flawed with their reference and mention of the "Scates case". It is my recollection that the delay (January 2011 to June 2012),for implementing deconsolidation of the Agua Fria from Anthem's wastewater district was brought upon by Commission Staff request to re-evaluate case decisions based upon implementing it along with the Winter Average Rate (WAR) proposal. It was not a cost of service issue in the manner Verrado argues in their response, but a simple time delay to reach a final decision.

Bob Golembe
Anthem
