Arizona Corporation Commission  
DOCKETED

OCT 02 2014

RECEIVED

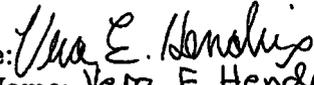

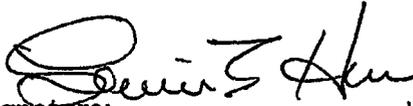

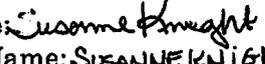

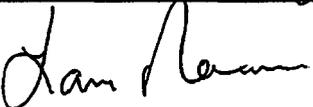

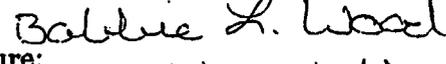

DOCKETED BY  Petition to the Arizona Corporation Commission 2 P 3: 48  
Utility Reclassification Rulemaking

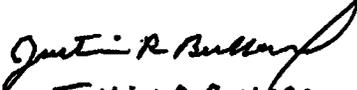

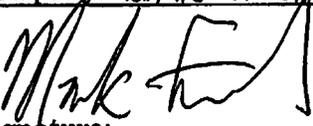

ARIZONA CORPORATION COMMISSION  
DOCKET CONTROL

Docket No. RU-00000A-13-0294

We urge the Arizona Corporation Commission to adopt the proposed utility reclassification rule proposed by the Commission Staff. The proposed rule will greatly benefit small water companies by simplifying their rate case filing requirements and will provide a faster and more efficient rate case process for many small water companies. For small water companies, rate case expense can be a significant expense, in some cases it is even more than the rate increase, and the customers will often end up bearing the burden of these costs. Utility re-classification therefore benefits utilities, their customers and the Commission. It is also reasonable to update the utility classifications because they have not been updated in over 20 years. We thank the Commission and the Staff for considering this important proposal.
