RE: **Crimes Against Humanity**

Dear Commissioners,

DOCKETED BY

A revealing sworn statement by microwave weapons expert, Dr. Barrie Trower, quoted below, relates to documents obtained under the Freedom of Information Act (FOIA). Even though extracts from published US Defense Intelligence Agency (DIA) documents confirmed the 1971 US Naval Medical Research Institute (NMRI) reference of 2300 research articles listing over 120 impairments and illnesses attributed to radiofrequency microwave radiation, Dr. Trower quoted FOIA DIA documents:

"If the more advanced nations of the West are strict in enforcement of stringent exposure standards, there could be unfavorable effects on industrial output and military functions... It was suggested that governments in the West chose a safety level compatible to industrial output and military function. The governments that adopted the thermal level only denied and still to this day deny any adverse effect from subthermal levels."

Dr. Barrie Trower also referenced the reason for the decision to disregard ***stringent exposure levels***:

"in order to protect industrial profit and military function, and to avoid litigation from military employees."¹

¹ **Amended Declaration of Barrie Trower**; US District Court District of Oregon: Portland, Civil Action No. 3:11-cv-00739-MO; 28 U.S.C. § 1746. DIA Documents: DST -1810S- 076-76, ST-cS-01-169-72, DST-18105-074- 76 (19721983).<http://apps.fcc.gov/ecfs/document/view?id=7520958137>

Dr. Barrie Trower's revealing FOIA references highlight sociopathic decisions made by military-industrial interests: cold-blooded reasoning for forcefully exposing United States populations, and everyone else, to dangerous pulsed microwave wireless technologies. Resulting activity has been a *serious attack on human dignity* with callous indifference and treasonous disregard for the safety and human rights of everyone targeted by the intentionally unregulated use of biologically harmful pulsed microwaves in the 900 MHz and 2.4 GHz range.

Instead of **strict enforcement of stringent exposure standards** that humanity, all animals and plants deserve, the choice of the military-industrial elite has been ***dehumanizing enslavement*** to unsafe technologies that has involved ***human experimentation, torture*** and ***murderous inhumane acts***. **Crimes Against Humanity**, as defined by the **Rome Statute of the International Criminal Court Explanatory Memorandum**, reach the threshold of 'crimes against humanity' only if they are part of a **widespread or systematic practice**.^{2 3}

President Dwight D. Eisenhower, the only general to be elected president in the 20th century, warned us, in his 1961 farewell **Military-Industrial Complex Speech**:

"In the councils of government, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military-industrial complex. The potential for the disastrous rise of misplaced power exists and will persist.

We must never let the weight of this combination endanger our liberties or democratic processes. We should take nothing for granted. Only an alert and knowledgeable citizenry can compel the proper meshing of the huge industrial and military machinery of defense with our peaceful methods and goals, so that security and liberty may prosper together."

² http://en.wikipedia.org/wiki/Crimes_against_humanity

³ *US widespread 2012 EIA AMI deployments were 43,165,183.*

Berg Insight expects almost 100% deployment in N America by 2020.

AMI threatens our 'security and liberty' and seems to be widespread and systematic enough in its intentional harm to justify our serious concern and activity.

When Crimes Against Humanity and WMDs are considered realistic definitions for AMI activity, 'regulatory capture' of the ACC by APS implicates everyone involved.

Our ACC must RECALL all AMI WMD 'smart' meters and infrastructure. Our health, safety, security and liberty require through legal response by our ACC. You must not allow the use of WMDs⁴ against the PEOPLE OF ARIZONA.

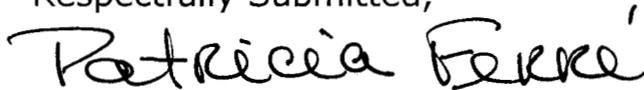

The following statutes were created to protect Arizona citizens from *military-industrial complex* corruption that has developed out of roots President Eisenhower warned us about in his 1961 farewell speech. Dr. Barrie Trower has also warned us in his **Amended Declaration of Barrie Trower**, and elsewhere.⁵

Our ACC has the Power to STOP AMI WMD CRIMES AGAINST HUMANITY. Failure to protect us from APS implicates you in all of their harmful activity. These are some of your tools:

Please use them.

Amended Declaration of Barrie Trower ⁶

Selected portions from 26 page document: 2 pages.

According to Dr. Barrie Trower, former Royal Navy microwave weapons expert, "microwave or 'radiowave sickness' was first reported in August 1932 with the symptoms of severe tiredness, fatigue, fitful sleep, headaches, intolerability and high susceptibility to infection. By 1971, the **US Naval Medical Research Institute (NMRI)** referenced 2300 research articles listing in excess of 120 impairments and illnesses attributed to radiofrequency and microwave radiation.⁷

Under the Freedom of Information Act, extracts from published **US Defense Intelligence Agency (DIA) Documents** confirmed the NMRI research and stated: **'If the more advanced nations of the West are strict in enforcement of stringent exposure standards, there could be unfavorable effects on industrial output and military functions,'** in order to protect industrial profit and military function, and to avoid litigations from military employees. It was suggested that governments in the West chose a safety level compatible to industrial output and military function. The governments that adopted the thermal level only denied and still to this day deny any adverse effect from subthermal levels. DIA Documents: DST - 1810S - 076-76, ST-c5-01-169-72, DST-18105-074-76 (1972-1983).

In 1975, after an extensive study, the United States DIA warned all of its personnel of the risk from low-level microwaves including illnesses ranging from microwave sickness (flu like symptoms, depression, suicidal tendencies) to cancers and leukemia. *Biological effects of electromagnetic*

⁶**Amended Declaration of Barrie Trower** ; US District Court District of Oregon Portland, Civil Action No. 3:11-cv-00739-MO; 28 U.S.C. § 1746.

radiation (radiowaves and microwaves) – Eurasian Communist Countries, Defense Intelligence Agency: DST-1810S-074-76, March (1976).

During the Cold War, the Russian Embassy microwaved the United States Embassy in Moscow with low-level microwaves for many years from across the road... After changes of staff for serious neurologic impairments, miscarriages, multiple cancers / leukemias and other illnesses to both male and female employees and their children, the late John R. Goldsmith, M.D., was invited to investigate this matter. His investigative report on this incident showed that continuous, long-term low-level microwaves were responsible for those illnesses. Goldsmith, J. R., *Radiofrequency Epidemiology*, Environmental Health Perspectives, Vol 105, at 1585, Supp 6, Table 8, Dec (1997). Dr. Goldsmith held 11 Professorships and was the World Health Organization (WHO) representative for Europe. **Interestingly, the power of the microwaves used by the Russians in some cases was less than the power used by modern-day transmitters, with the average ranging <math><0.02 - 0.05 \mu\text{W}/\text{cm}^2</math> and the maximum ranging 5 – 18 $\mu\text{W}/\text{cm}^2$.**

Goldsworthy JR. Epidemiological evidence of radiofrequency radiation (microwave) effects on health in military, broadcasting, and occupational studies, *Intl J Occ and Env Health*, 1:47-57, 1995. http://www.radiationresearch.org/goldsworthy_bio_weak_em_07.pdf. Dr. Goldsmith's warning on health and fertility: <http://omega.twoday.net/stories/1755556/>.

Debriefing spies during The Cold War extended my military education into the full diversity of stealth microwave warfare and communication systems. In so doing, I learned a list of approximately 30 pulse frequencies that could induce some 50 physical and mental ailments by entrainment.

As soon as ordinary MW transmitters became commonplace, residents started to complain of neurologic impairments, illnesses and later of cancer clusters...

Microwave sickness was well documented by 1997, when over 100 further research documents pertaining to it were referenced. Grant, L., *Microwave Sickness*, Electrical Sensitivity News, Vol I No 6, Vol 2 Nos 1-4 (1997).
