Mister Chairman,

As a resident of Verrado, I respectfully urge you to vote in favor of full consolidation of EPCOR's wastewater districts. I know that, in the previous round with EPCOR, you voted in favor of deconsolidating the Anthem and Agua Fria wastewater districts, and sincerely hope you will apply a critical eye to the circumstances that have been created as a result. The issue has been clouded with sensationalism and legal maneuvering, more apropos of a class action suit than the solemn matter of providing essential utilities at attainable rates for families. As you consider your vote, please look past the shouting to weigh these critical facts.

Allocating costs to neighborhoods on a per capita basis is completely out of line with the standard practice of almost any utility provider. Individual APS and Southwest Gas customers' bills don't increase because a sub-station or relay was built nearby. Clearly the benefits of city-wide infrastructure benefit the city as a whole and the best way to distribute costs is among the largest base of ratepayers. Our phone calls go to the same service number. A service technician doesn't handle solely Agua Fria calls with Agua Fria parts. As Agua Fria customers, our nearest customer service office is in Sun City, officially another district. The actual operation of these districts are unified in all aspects other than billing.

Among the districts, only Agua Fria has significant opportunity for growth. Our sister districts are completely built out. The only chance to increase the ratepayer base for the areas EPCOR services and further defray costs of operations for everybody is through growth in the Agua Fria district. The current, prohibitive costs of wastewater are not only stunting growth in the area, they are actually driving existing ratepayers out.

The real impacts of the 2012 decision to deconsolidate have been, frankly, disastrous to Agua Fria residents. No amount of conservation will do away with a \$106 wastewater charge (soon to be \$121), and we find ourselves making choices about which essentials to do without or whether to leave altogether. Much has been made of retirees on "fixed incomes." I would urge you to consider the fact that virtually everyone is dealing with earning potential that cannot be increased at will.

Full consolidation is the right decision, not just for Agua Fria, but for all EPCOR customers, who will, sooner or later, be in need of subsidization to offset the costs of essential infrastructure upgrades, installations and improvements. One company, one district, one rate. It's simply the fair thing to do. Water is life, and should not be held hostage in such a manner. Thank you for your consideration in this matter. I look forward to seeing a positive outcome for all of EPCOR's customers as a result of your vote.

Sincerely,

Dear Sir or Madam;

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include: Agua Fria, Anthem, Sun City, and Sun City West. In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer.

Thank you for your time and consideration on this extremely important matter.

That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer.

Dear Sir or Madam;

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include: Agua Fria, Anthem, Sun City, and Sun City West. In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. Subject: ACC docket: SW-1303A-09-0343

Dear Sir or Madam;

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include: Agua Fria, Anthem, Sun City, and Sun City West. In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer.

Thank you for your time and consideration on this extremely important matter.

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include: Agua Fria, Anthem, Sun City, and Sun City West. In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer.

Thank you for your time and consideration on this extremely important matter.

That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer.

Dear Sir or Madam;

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include: Agua Fria, Anthem, Sun City, and Sun City West. In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. Dear Commissioner Burns;

I am writing to you as a resident of the community of Verrado and the Agua Fria district to respectfully request your support in the issue of EPCOR wastewater districts. I know that, in the 2012 vote, you opposed deconsolidation, and I hope we can count on your support once again.

We believe that full consolidation of EPCOR's wastewater districts is the very best policy decision ACC can make. It not only grants the rate relief Agua Fria residents so desperately need, it also meets with the expectations of the Arizona Constitution and aligns with the way other utilities are priced. It provides economy of scale and promotes efficiency on the part of the Company.

RUCO's director, Mr Quinn, has been vocal in his opposition to a speedy decision, citing the need for a full rate case first, but his own arguments in other cases provide the procedural path to deliver exactly the relief we need. He has argued that an interim rate decision is justified in emergency circumstances, and that's just what we have on our hands: a rate emergency. You are well aware that, with the January increase, our rates in Agua Fria will rival the highest in the nation. Our neighbors are selling their homes and new customers are declining to buy, simply because of the water bill.

EPCOR has taken the unprecedented step of advocating a position before the Commission. This is a clear signal of the urgency of the matter. Certainly a rate case is justified, but customers should not bear the burden for another year and a half while that process is underway.

The Commission hurt a lot of ratepayers when it voted to deconsolidate Anthem from Agua Fria two years ago. The decision has had crippling effects on Agua Fria ratepayers, and it is a decision that must be corrected. Please help us correct it. Please cast your vote in favor of full consolidation of EPCOR's wastewater districts and urge your colleagues to do the same.

Respectfully urge the Commissioners of the Arizona Corporation Commission (ACC) to vote for **full consolidation** of the wastewater districts under EPCOR management in the Phoenix metro area to include: Agua Fria, Anthem, Sun City, and Sun City West. In support of this decision, I urge you to consider the following:

Verrado and other Agua Fria ratepayers are unduly impacted by the current **deconsolidated** structure, paying 300% of normal rates for Metro Phoenix. That **deconsolidated** rates are negatively impacting the financial health of each affected ratepayer. That **deconsolidated** rates are negatively impacting the growth and development of our community. That everyone benefits from the growth and development of greater Phoenix, and that **fully consolidated** cost-sharing, where feasible, is fair and reasonable. That a simplified rate structure with **full consolidation** works to the long-term advantage of **all** ratepayers, regardless of district. Costs of future repairs, upgrades, maintenance, and growth will be distributed across a much larger ratepayer group with **full consolidation**, reducing the impact to any single ratepayer.

Thank you for your time and consideration on this extremely important matter.
