Comments: Having a water rate increase will affect our family of five in a negative way. Only my husband has a full-time job. We already are very water conscious, from our landscaping to our personal water use. I cannot see why our water rates should be allowed to increase further. I understand that we have an abundant water supply. I could understand it if it was in jeopardy and we needed to be even more restrictive, but we are not and I don't see how we can cut our water usage any more. Thank you for your consideration.
