RECEIVED

2014 NOV 10 P 12: 10

Dear members of the Arizona Corporation Commission:

AZ CORP COMMISSION  
DOCKET CONTROL

Please do not delay in the implementation of the energy efficiency standard in Arizona.

I am a small business owner, and it is very important to me to be able to use my energy more efficiently so that I may be more profitable - especially during the hot summer time.

I am concerned about my energy bills, and I know that the energy efficiency standard is a significant part of the solution. All of this considered, I am willing to pay more in the beginning to serve as an investment in a future with more manageable energy bills.

Thank you for your service to our state.

Sincerely,

Arizona Corporation Commission
