DOCKETED BY

ORIGINAL

Dear Chairman Stump and members of the Arizona Corporation Commission,

Owning a small business in Arizona just seems to get more and more difficult every year. As an owner myself, I have seen my utility bills rise – without an end in sight. This is a real problem as a good portion of my profit is getting eaten up in making these energy payments.

I believe there is a solution, however, and that is the Energy Efficiency Standard. The Standard provides for lower energy costs with time, as well as a standard of 22% by 2020. It truly seems like the way to go.

Please keep the Energy Efficiency Standard going forward. Thank you for your time and consideration.

Respectfully,
