Docket E-00000-XX-
13-0214

Chair Stump and Commissioners,

I'm a small business owner in APS's territory, and I'm writing you today to support the energy efficiency standard.

As Arizonans, we pride ourselves on self-reliance. To me, nothing is more self-reliant than energy efficiency. With APS's programs, we're able to keep ratepayer money here, in my community, and ship less money out of state on ever-increasing fuel costs.

As the state's largest utility, APS is in a unique position to significantly decrease our overall power demand, which means less wear and tear on the grid and lower maintenance costs. Over time, these programs can deliver sustained energy savings.

I appreciate your consideration of my views.
