DOCKETED

NOV 10 2014

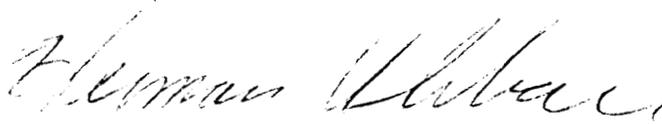

DOCKETED BY 

Dear Chairman Stump and Commissioners,

I'm a small business owner and an APS ratepayer. I am writing to urge you to keep moving ahead with Arizona's Energy Efficiency Standard.

I can't stress enough how important energy efficiency is to the future of Arizona. Our current system is insane; we spend billions of dollars to import fuel for our power generation. Energy efficiency keeps that money here. By investing in energy audits and weatherized homes and buildings, our communities increase in value, and Arizonans are put to work making those upgrades. With that extra economic activity, businesses like mine are poised to see a real benefit.

Cheers,

HERNANDEZ'S BARBER SHOP
