DOCKETED BY 

Dear members of the Arizona Corporation Commission:

I own a small business in Arizona, and I value energy efficiency. The reason for this is because it can save me money on my energy bills each month, and this is very important considering the summer heat has caused me to use much more electricity.

Considering the overwhelming cost of energy these days, efficiency makes total sense. I don't see a reason why the energy efficiency standard is not being fully supported, and I urge you to implement it as soon as you can. It would be a shame for my business, as well as others' to go out of business because we can't afford our electricity when the solution is out there. So please support the energy efficiency standard.

Yours truly,

LYNDA CRESCANIN
