Dear Chairman Stump and Commissioners:

DOCKETED 

As a small business owner in Arizona, I know how difficult it is to deal with the ever-rising utility bills. It seems like every time I go to make a payment, the cost has jumped up. Several people say that this is the unavoidable truth, but I find this hard to believe.

I recently discovered the Energy Efficiency Standard, and I believe it is the way to go. I *have* to keep my air conditioning running during the summer, and the Standard seems like the perfect way to bridge the gap between necessary cooling and these costs.

Please keep the Energy Efficiency Standard moving forward.

Sincerely,

Yesica Castillo
