ORIGINAL

Dear members of the Arizona Corporation Commission:

As a small business owner, I believe it is important that the Energy Efficiency Standard is upheld. Running my own business has been my dream, and now that I am actually doing so, I find that it can be challenging to make ends meet—due in part because of my high utility bills. Having a fully-functional air conditioning system is a must for us Arizonans. Unfortunately, it comes with a host of hefty payments that cut drastically into profits.

In order for many businesses to stick around, we need a solution—one that will lower energy costs can be a big part of this solution. I believe the Energy Efficiency Standard is Arizona's best bet.

Regards,

Fred Woods
