DOCKETED BY

:Dear Commissioners: I was involved in economic research under Department of Energy contract to study the economic impact of energy conservation. I wrote my master's thesis on this topic at the University of Illinois. I know from my own research that energy conservation saves energy and creates jobs. I also know that Arizona is one of the states where energy conservation such as insulation is most cost-effective. The environmental benefits are a bonus. I am surprised and disappointed that the Commission would consider going backward on the positive outcomes that Arizona has achieved so far. Please continue to mandate that Arizona electric utilities continue to support and implement energy conservation programs.

Sincerely,
John J. Nangle, M.S.E.E.
