ARIZONA CORPORATION COMMISSION  
DOCKET CONTROL

**Subject: Docket No E-00000XX-13-0214, Please Oppose Rollbacks and Revisions to the Energy Efficiency Standard**

Dear Chairman Stump and Commissioners:

I am concerned about the elimination of the energy efficiency standard in the state of Arizona. The concern is mainly due to a decision being discussed based on no actual findings showing energy efficiency has become a non-cost-effective solution for the state of Arizona. Several of the biggest economic states in the country (California, New York, Florida, and Illinois) have been able to increase their respective Gross Domestic Product while decreasing energy demand since the recession. I do not see why Arizona cannot follow in their paths.

Arizona has improved drastically in its energy efficiency program over the past few years as evident by the American Council for an Energy-Efficient Economy (ACEEE) scorecard.

ORIGINAL

Please support research into analyzing the cost effectiveness of energy efficiency programs through a detailed analysis before making a decision.

Thank you for your consideration.

Sincerely,

Dhanunjaya Mantena
