

Docket-No. E-00000XX-13-0214

Dear Chairman and Commissioners,

My name is Beverley Sutton and my spouse and I are customers of Tucson Electric Power.

ORIGINAL

I write to urge you to oppose the elimination of Arizona's Energy Efficiency Standards and any reopening of Arizona's Energy Efficiency Rules. These standards work to lower utility bills for my neighbors and me. These standards also help make Arizona an affordable place to live and work.

I am also a teacher and every year I teach about energy efficiency and conservation. I always schedule one of TEP's exceptional "Bright Students" presentations as the culmination to my unit on Energy. This presentation confirms and validates everything I teach and provides my low-income students with real world examples of how to save energy and therefore how to save money for their families. Any elimination of Arizona's Energy Efficiency Standards and any reopening of Arizona's Energy Efficiency Rules will likely gut this extraordinary program.

I am confident you will do the right thing for Arizona and our state's economy. I respectfully urge you to continue to support the Energy Efficiency Standards adopted in 2010.

Thank you,

Beverley A Sutton
