RES TARIFF: RENEWABLE ENERGY STANDARD SURCHARGE

Applies to: Ajo Improvement Company Service Area
Pima County, Arizona

AIC’s Renewable Energy Standard Surcharge (“RESS”) originally established in Decision No. 70303 (April 24, 2008) but discontinued in Decision No. 72894 (February 17, 2012) was reinstated in Decision No. 74831 (November 13, 2014). It applies to all retail electric service. All provisions of the customer’s current applicable rate schedule will apply in addition to this surcharge. AIC will evaluate – from time to time – its program funding requirements. If necessary, the RESS may be increased if it becomes apparent that more funding is needed for AIC to meet the standards contained within the REST Rules in future years. The Commission must approve any increases to the RESS. Any change to the RESS amounts will be applied in billing cycle beginning in the month following Commission approval and will not be prorated. The RESS rates and charges below are in accordance with the Commission Decision No. 74831.

Surcharge:

An RESS of \$0.004000 per kWh, but capped as follows:

Residential Customers:	\$1.05 per month per service
Non-residential Customers:	\$39.00 per month per service
Non-residential Customers with demand of 3 MW per month for three consecutive months:	\$117.00 per month per service

The RESS will be shown as a separate item on customer bills. The RESS is in accordance with the REST Rules, A.A.C. R14-2-1801 through R14-2-1816, which was approved by the Commission in Decision No. 69127 (November 14, 2006).

Effective: January 1, 2015
