Arizona Corporation Commission
Chairman Bob Stump
Commissioner Bob Burns
Commissioner Susan Bitter Smith

Dear Chairman and Commissioners,

My name is Luke Black and I am a customer of Salt River Project and live in Phoenix.

I am writing you and asking you to **oppose** the elimination of Arizona's Energy Efficiency Standards and any reopening of Arizona's Energy Efficiency Rules.

Arizona's Energy Efficiency Standards are a great resource for Arizonans. The standards lower our utility bills, make Arizona a more attractive location for businesses, and help make our state cleaner and safer. In addition, the standards protect folks in our communities that need extra help in paying their utility bills and the standards provide opportunities for people to get their homes weatherized. This in turn improves the quality of life for all Arizonans and lower health care costs and social service costs because people keep their lights on and stay healthy.

I am asking you to stand up for Arizonans and for our state's economy and well-being. I ask you to **oppose** the elimination of Arizona's Energy Efficiency Standards and any reopening of Arizona's Energy Efficiency Rules.

Please continue to support the Energy Efficiency Standards adopted in 2010. Thank you!

Sincerely,

Luke Black
