Docket # E-00000XX-13-0214

Dear Corporation Commissioners,

My name is Phillip Gibson and my Company is Quality Home Testing. I started my business in 2001 providing residential energy audits throughout Arizona. I have been to thousands of houses and in addition have done audits for Tucson Electric Power.

I have seen first hand at what these measures accomplish. I would ask that the ACC keep these programs going. These audits provide the tools for significant energy savings for homeowners. Without these Energy Efficient programs homeowners, as well as the environment will suffer some consequences.

Thank you,

Phillip Gibson  
Quality Home Testing
