Re: Docket # E-01345A-13-0069

ORIGINAL

Judge Jibilian;

As an intervener in the above docket, I second the motion made on this docket by Warren Woodward on December 4, 2014, that this docket be closed, and that you issue a procedural order that all wireless "smart" meters in Arizona be removed ASAP. As you may know, the Arizona Department of Health Services recently issued a study in which they did not find wireless "smart" meters to be safe. Utilities using such meters now violate A.R.S. 40-361.B and A.R.S. 40-321.A.

If you are unable or unwilling to issue such a procedural order, I second an alternative motion made on this docket by Warren Woodward on December 4, 2014, that the above docket be rescheduled to a later date, and take the form of an evidentiary hearing.

Thank you for your consideration.

Sincerely,

Patricia Christensen Ferre
