Page 18, Line 2, After "cost effectiveness." INSERT:

"However, based on information submitted by TEP, we do not agree. The existing four lower tier duct sealing measures (earlier referred to as (i) $DTR_{\geq 14\%}$ Reduction leakage (All electric); (ii) $DTR_{\geq 14\%}$ Reduction leakage (Dual fuel); (iii) $HVAC_{QI-DTR \geq 14\%}$ Reduction leakage (All electric); and (iv) $HVAC_{QI-DTR \geq 14\%}$ Reduction leakage (Dual Fuel)) appear to be cost-effective in practice and should continue until TEP has had the opportunity to evaluate and report at least twelve months of data from actual installations. Therefore on or before May 31, 2015, TEP should file a report in this docket on the savings and cost-effectiveness of the four Existing Homes lower tier duct sealing measures. Based on Staff's evaluation of the report, any of the four measures found cost-effective should be continued until they are no longer cost-effective or until further action of the Commission, while any measures Staff does not find cost-effective should cease to be a program measure."

Page 42, Line 28, INSERT the following New Ordering Paragraphs:

"IT IS FURTHER ORDERED that any measures not found cost-effective by Staff shall be discontinued, however, Tucson Electric Power Company may continue the four Existing Homes lower tier duct sealing measures to allow Tucson Electric Power Company to gather additional data demonstrating cost-effectiveness in the field. These four Existing Homes lower tier duct sealing measures may be continued as long as field data demonstrates that they are cost-effective, otherwise Tucson Electric Power Company shall discontinue any of the measures found not to be cost-effective.

IT IS FURTHER ORDERED that Tucson Electric Power Company, on or before May 31, 2015, shall file a report in this docket on the savings and cost-effectiveness of the four Existing Homes lower tier duct sealing measures. The report shall be based on at least twelve months of data from actual installations and Tucson Electric Power Company shall discontinue any of the four measures Staff finds non-cost-effective based on Staff's evaluation report."
