RE: Docket W-01431A-13-0265 Decision # 74503

The following is a response in regards to the compliance report for Valle Verde Water. At this time the Arizona Department of Water Resources ("ADWR") will not be able to provide a letter indicating that the Company's water use and monitoring issues have been resolved until after they review the 2014 Annual Water Withdraw and Use Report. This report is due no later than March 31, 2015 and will be provided to them at that time.

We are hopeful that with coordination with-ADWR personnel, we will be able to have a Non-compliant status back into a compliant status sometime after March 31, 2015.

Please do not hesitate to contact us if you need additional information or have questions.

Sincerely,

Keith Dojaquez, CCI  
 Vice President and Operations Manager  
 Southwestern Utility Management, Inc.
